VA00203	VW Beetle Convertible in Dolphin Grey, Limited edition of only 3000	11.99

The history of the Beetle started in 1938 when Hitler commissioned Ferdinand Porsche to work on what became know as 'The Peoples car'. It was an American reporter who thought the car resembled an insect and that is how it got it's infamous name!
 Since its inception the original Beetle has seen many design changes but it still remains one of the most loved cars ever built. The 'cuddlier' form of this Delphin Grey convertible was introduced in the early '70s, however its overall design was based on the original Hebmuller models from the late '40's.

Up to present day over 20 million Beetles have been produced!
